

It's Easy to Get Started!

Looking for a healthy, beautiful smile? People of all ages can benefit from MicroArch. Its comfortable shape, small size and advanced design provide a pleasing treatment option for young people and professionals.

The Mini Bracket with Style

The benefits of straight teeth and a healthy smile are investments that last a lifetime. Be sure to speak to your orthodontist about the importance of good oral hygiene and maintenance of your braces throughout treatment. To find out if you are a MicroArch candidate, speak to your orthodontist to learn if this system is right for you.

To learn more about the benefits of MicroArch, the mini bracket with style, visit the manufacturer at www.gacintl.com.

MicroArch[®]

The mini bracket with style[™]

MicroArch[®]

MicroArch[®] for the Smile You've Always Wanted

Approximately 30% smaller than traditional style brackets, MicroArch is attractive and subtle in appearance to help you feel more confident and self-assured while in treatment.

The system's low profile and ultra smooth finish ensures patient comfort and helps you better maintain good oral hygiene.

Best of all, MicroArch enables you to get a beautiful and healthy smile comfortably and less noticeably than before.

Only the Benefits Are Big

MicroArch enables you to improve your smile less noticeably than with standard sized brackets. Because the system has features that are specially engineered to work in balance with the shape of the natural tooth, the treatment process is optimized and results are lasting.

Benefits of MicroArch

MicroArch brackets are made using aerospace-quality steel. This means that while MicroArch appliances are very small, they are actually stronger than brackets constructed from less expensive materials. This same attention to quality is reflected in every aspect of this bracket's design and manufacture.

Designed to Fit Your Life

With its special rhomboid shape and sleek styling, MicroArch is 30% smaller than standard sized brackets.

Less is More with MicroArch

- 30% smaller than standard sized brackets
- Smooth finish for less irritation
- Low, sleek profile for greater comfort
- Improved facial proportion and appearance
- Improved confidence with a beautiful smile and improved facial esthetics
- Enjoy lasting results

“The day I got my braces was the best day of my life. I wasn't worried about my senior pictures or going to the prom, because my teeth were straight.” — David
