

It's Easy to Get Started!

Looking for a healthy, beautiful smile? People of all ages can benefit from the OmniArch system. It's comfortable design and advanced technology mean a better treatment process and better results. OmniArch's low profile and easy to wear shape make it a great choice for young people and for adults.

A Smile That's Worth Sharing

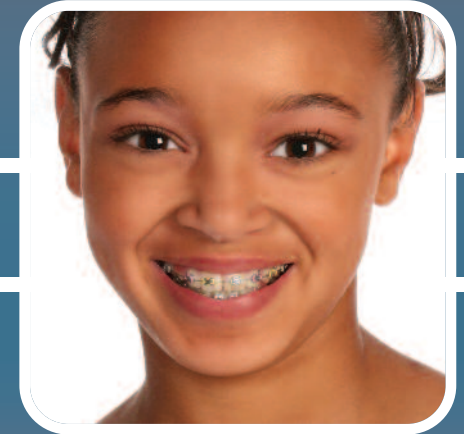

The benefits of straight teeth and a healthy smile are investments that last a lifetime. Be sure to speak to your orthodontist about the importance of good oral hygiene and maintenance of your braces throughout treatment. To find out if you are an OmniArch candidate, speak to your orthodontist to learn if this system is right for you.

OmniArch[®]

OmniArch Creates Beautiful Smiles

OmniArch brings you all the benefits and advantages of the latest orthodontic technology in a small, mid-sized bracket. Its low profile and compact rhomboid shape is comfortable and attractive.

How can a bracket that is small be effective and reliable? OmniArch is specially angled and designed to fit the shape of your teeth. Each bracket feature is designed to work in concert with the OmniArch system so your treatment is optimized and results are beautiful and lasting.

Shape Your Future

Because the OmniArch bracket has features that are specially engineered to work in balance with the shape of the natural tooth, the treatment process is optimized and results are lasting.

Benefits of OmniArch

OmniArch brackets are made using aerospace-quality steel, the strongest available. This means that while OmniArch appliances are small, they are actually stronger than brackets constructed from less expensive materials. This same attention to quality is reflected in every aspect of this bracket's design and manufacture.

Less is More

With its special rhomboid shape and sleek styling, OmniArch is smaller and narrower than standard sized brackets.
